

STRONGER THAN YOU THINK

They still look up to you. You are the #1 influence on whether your child chooses to use marijuana, tobacco, alcohol or other drugs.

Talk to your child about the risks associated with marijuana and other drug use and the difference between adult use and youth use.

YOUR OPINION MAKES A DIFFERENCE - IT IS STRONGER THAN YOU THINK.

#STRONGERNH

The developing brain (up to age 25) is impacted by substance use and can result in increased potential for developing a substance use disorder, dependence and poor mental health.

STRONGERNH.ORG

Accurate and up-to-date INFORMATION about alcohol, tobacco and other substances to inform your decisions and the conversations you have with others.

Every day ACTIONS you can take in your home, school, community or worksite to prevent substance misuse and promote wellness.

CONNECTION to substance misuse prevention professionals, activities and resources.
